

PRODUCT INFORMATION - MEDOX®

COMPOSITION:

Generally, NAIs are composed of multiple negatively charged molecules and these negative ions combine with several or up to 20 or 30 water molecules and form negative-ion clusters such as $\text{CO}_3^{2-}(\text{H}_2\text{O})_n$, $\text{O}^{2-}(\text{H}_2\text{O})_n$, and $\text{O}_3^{2-}(\text{H}_2\text{O})_n$.

INDICATIONS:

Boosts your immune system	Ovarian cancer
Migraines	Emphysema
Hay fever	Improves concentration
Sinus	Mood swings
Fights fatigue	ADHD
Kills all viruses	

CONTRAINDICATIONS:

If feeling dizziness, light-headedness, headache or irritation of the throat, remove the mask from your face immediately and power down the MEDOX® generator unit.

EXPOSURE LIMITS:

Do not exceed the advised dose as indicated below

DOSAGE AND DIRECTIONS FOR USE:

Standard unit generates a cloud of high density negative ions which is directly inhaled from the unit

1. Power up the **MEDOX® Standard** generator unit as per brochure, a red light, lights up on the top of the unit.
2. Seat yourself in close proximity to the output of the unit.
3. Place the **MEDOX® Standard** generator in front of your face. +/- 20-30cm.
4. Never leave the unit on the floor while in operation.
5. Can be used 24 hours. Keep on and running in house/vehicle.

ICU Unit:

1. Connect the respiratory tube to the front of the **MEDOX® ICU** unit and the other end to the mask.
2. Power up the **MEDOX® ICU** generator unit, a red light, lights on the top of the unit.
3. Sit in an upright or seated position.
4. Place the face mask over your nose and mouth fitting firmly over your face.
5. Tighten the face mask straps around your head.
6. Apply normal breathing on inhalation and exhalation through nose and or mouth.
7. Not recommended for use while operating a motor vehicle

Adults:

5 minutes only every eight (8) hours. Repeat for three days; thereafter use it for 5 minutes only every second day to boost your immune system.

Children:

3 minutes only every eight (8) hours. Repeat for three days; thereafter use it for 3 minutes only every second day to boost your immune system.

SIDE EFFECTS

Should any irritation of the throat occur reduce the time to 3 minutes every second day for adults & 2min for children.

IDENTIFICATION:

A negative ion is an oxygen atom with an extra electron. It is odorless. Ozone is an oxygen molecule consisting of three oxygen atoms. You can smell ozone if the concentration is high enough.

Ozone is notably pungent and has a very sharp smell that is often described as similar to that of chlorine. Some people can smell ozone before the storm has even arrived.
